# PROJ ontwikkelaar: Gerald Evenden

A screenshot of a tweet from Howard Butler (@howardbutler) dated September 2, 2016. The tweet text reads: "In researching Proj.4 website development, I learned that Proj's original author, Gerald Evenden, died on Apr 4th :( [ccgfuneralhome.com/obit/gerald-i....](http://ccgfuneralhome.com/obit/gerald-i....)". The tweet has 5 retweets and 9 likes. The interface includes a profile picture, name, handle, a 'Follow' button, and icons for reply, retweet, like, and a menu.

# VORONOI

# VORONOI MAKEN met Python

1. Postgres 9.5/PostGIS 2.2
2. PL/Python
3. Voronoi.sql

```
SELECT
```

```
    geom
```

```
FROM
```

```
    voronoi('table_name','geometry_column');
```

# VORONOI MAKEN zonder Python

1. Postgres 9.6 en PostGIS 2.3 zelf compilen
2. GEOS 3.5.0 zelf compilen
3. **PROJ4** 4.9.2 zelf compilen

```
SELECT
```

```
    ST_VoronoiPolygons('geometry_column')
```

```
FROM
```

```
    'table_name';
```

- MapServer
- Mapnik, Carto en Mapbox Studio Classic

**`/usr/share/proj/epsg`**

# LibGeoTIFF > PROJ > EPSG

**rouault** commented on 21 Aug

Open Source Geospatial Foundation member

Patching only the epsg file isn't appropriate for a lasting solution. This would be lost again at the next upgrade. A proper fix is too patch [https://trac.osgeo.org/geotiff/browser/trunk/libgeotiff/csv/datum\\_shift\\_pref.csv](https://trac.osgeo.org/geotiff/browser/trunk/libgeotiff/csv/datum_shift_pref.csv) to add a mapping from the Amersfoort datum (EPSG:4289) to the appropriate datum shift entry in [https://trac.osgeo.org/geotiff/browser/trunk/libgeotiff/csv/datum\\_shift.csv](https://trac.osgeo.org/geotiff/browser/trunk/libgeotiff/csv/datum_shift.csv), which seems to be 15934 with small differences due to the precision into which values are stored.

# Snelle WMS luchtfoto's A'dam

- GDAL/OGR

- `gdal_retile.py -s_srs "EPSG:28992" + gdaladdo`
- `gdaltindex + ogr2ogr -a_srs "EPSG:28992"`
